

Energy efficiency and RES deployment in SMEs

Seminar Invitation

Thursday, 7th June 2018 | 9:30 – 15:30

Prague, The Straka Academy (the seat of the Government of the Czech Republic)

Nábřeží Edvarda Beneše 4, 118 00 Praha 1 - Malá strana

Are you interested in the potential of increasing energy efficiency in your company? Are you considering implementation of renewable energy sources and associated technologies? Do you want to go through with an RES or energy efficiency focused project, but you don't have any previous experiences? Then please accept our sincere invitation to the practically focused seminar, under preparation of the Government of the Czech Republic, in cooperation with experts from both state and private sector.

The primar focus of the seminar is to pass on practical information related to energy efficiency projects in small to medium enterprises, taking deployment of renewable energy sources into account. Seminar will present practical approaches towards project proposals, current trends in the field of energy efficiency and last but not least a successful project.

Participation is **free of charge**. The seminar will be conducted in **English**. [Online registration](#) is now open, please register by 1st June 2018.*
