

Project Idea

“Development of the wastewater treatment plants in Transcarpathian region Ukraine”

**TRANSCARPATHIAN
AGENCY**
FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Main Priority Area

PA 4.04 To continue boosting major investments in building and upgrading urban wastewater treatment facilities across the Danube Basin, including measures to build capacity at the regional and local level for the design of such infrastructure

**TRANSCARPATHIAN
AGENCY**
FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Project relevance

The quality and capacity of wastewater treatment facilities in three target cities of Uzhgorod, Mukachevo and Beregovo lay significantly behind other Danube cities.

In extreme case, a total of nearly 150,000 m³ of insufficiently purified wastewater pollutes rivers Danube basin every day!

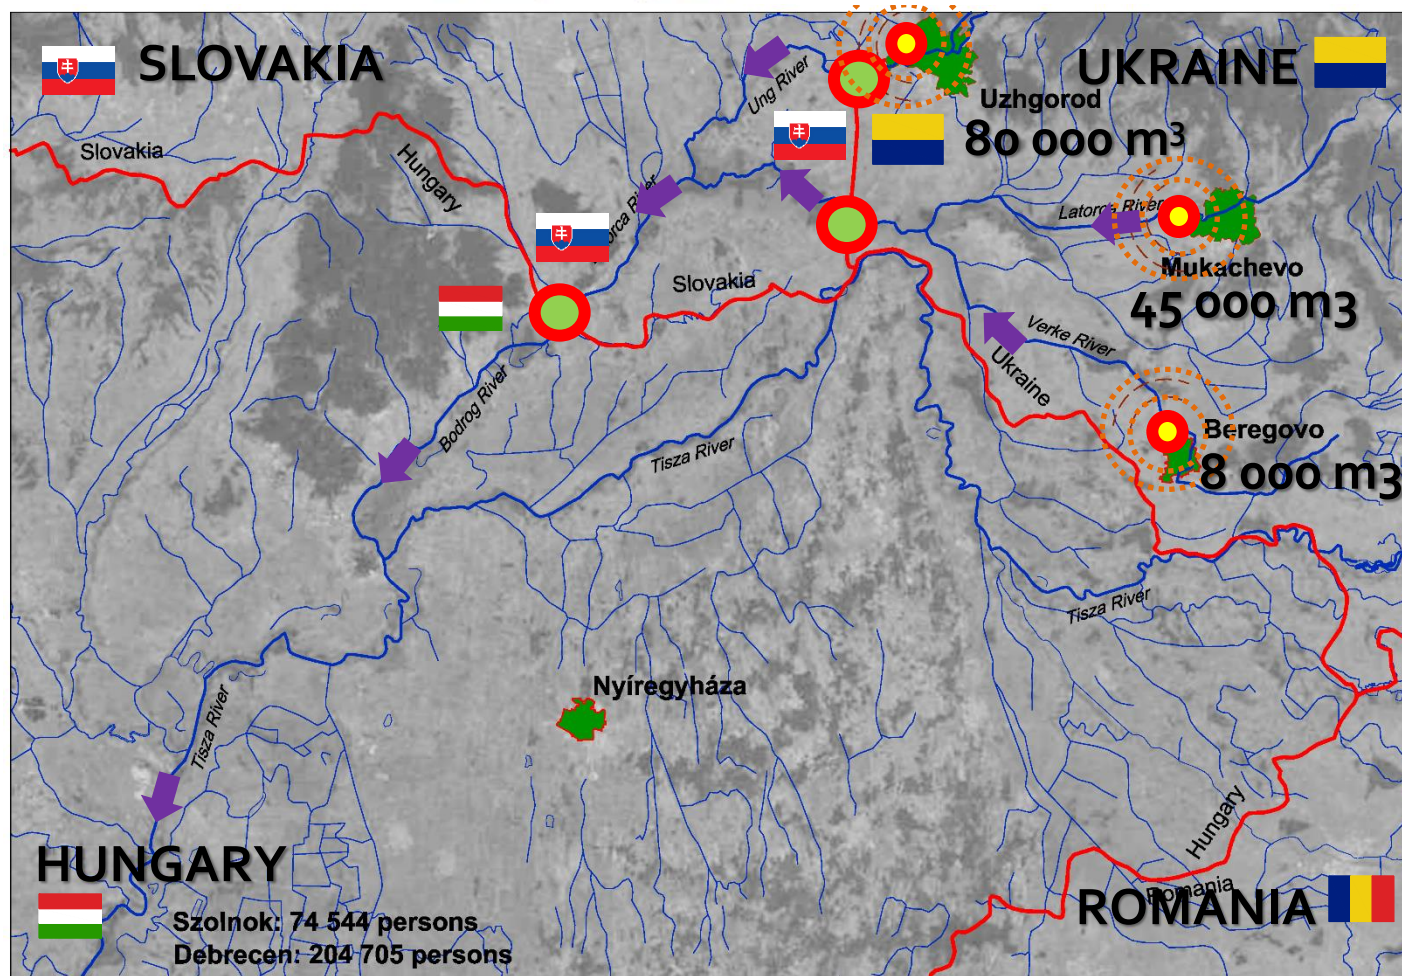

**TRANSCARPATHIAN
AGENCY**
FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Direct risks in the region:

- River pollution;
- Groundwater pollution.

Target groups

Target groups

- Population of Uzhgorod: 117,600 persons.
- Population of of Mukachevo: 81,600 persons.
- Population of Beregovo: 24,505 persons.
- Inhabitants of Transcarpathia (Ukraine), Kosice region (Slovak Republic), Eastern part of Hungary (Borsod-Abaúj-Zemplén, Hajdú-Bihar, Jász-Nagykun-Szolnok, Szabolcs-Szatmár-Bereg, Bács-Kiskun, Békés, Csongrád) and North of Serbia (Vojvodina), - more than 6.8 million people.
- 1500 settlements in the water catchment area of the Tisza River and of the Danube river.

FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Project general and specific objectives

Overall objective:

- to improve the wastewater treatment facilities in Uzhgorod, Mukachevo and Beregovo and thus reduce pollution in rivers of Transcarpathian and Danube region.

Specific objectives:

- reconstruction of waste water plants and development of modern purification technologies;
- development of treatment facilities for waste and sludge (biogas plant and composting stations).

Current conditions

- Hydraulically surcharged;
- Critical technical conditions;
- Limit exceeding;
- Possibility of groundwater pollution;
- No waste and sludge usage.

Uzhgorod

Mukachevo

Beregovo

Proposed project activities and their locations

Activity 1: Estimation of building costs and design for 3 cities (Uzhgorod, Mukachevo and Beregovo);

Activity 2: Construction of mechanical and biological treatment facilities in 3 cities;

Activity 3: Construction of nutrient removal facilities in 3 cities;

Activity 4: Sewage sludge treatment, construction of composting facilities and rainwater reservoir.

Activity 5: Reconstruction of the most critical elements of canal network.

Expected results and outcomes

- 1) Project documentation for 3 wastewater treatment plants and 3 sludge digesters prepared;
- 2) Existing mechanical and biological treatment units demolished and new facilities constructed;
- 3) Nutrient removal facilities constructed;
- 4) Composting units, sludge digesters constructed;
- 5) Rainwater reservoir, roads and yard lines constructed;
- 6) A trial run for each treatment plant;
- 7) Reduction of infiltration on canal network.

Uzhgorod

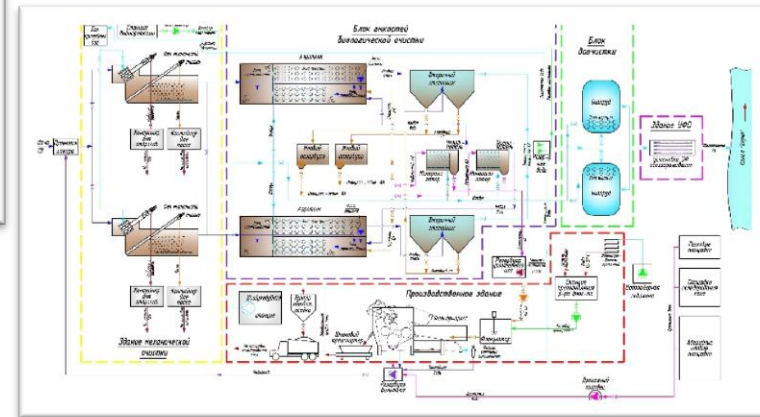

Planned conditions

- Termination of Hydraulical surcharge, rainwater reservoir;
- Termination of groundwater pollution;
- Usage of sludge, sludge emplacement.

Mukachevo

Beregovo

Project timeframe

06.2016 - 06.2019

Approximate total project budget (in million EUR) = 44,0 EUR

Preparation and measuring total = 3,5 EUR:

Uzhgorod 1,5 EUR, Munachevo 1,0 EUR, Beregovo 1,0 EUR;

Project of WWT total = 34,5 EUR:

Uzhgorod 15,5 EUR, Mukachevo 11,5 EUR, Beregovo 7,5 EUR;

Project of canal network total = 6,0 EUR:

Uzhgorod 2,0 EUR, Mukachevo 2,0 EUR, Beregovo 2,0 EUR

Project Partners

- Municipality of Nyíregyháza, Hungary;
- Uzhgorod City Council, Ukraine;
- Mukachevo City Council, Ukraine;
- Berehovo City Council, Ukraine;
- NGO Transcarpathian Agency for Investments, Innovations and Development, Ukraine;
- NYÍRSÉGVÍZ Nyíregyháza, Hungary.

**TRANSCARPATHIAN
AGENCY**
FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Potential sources of funding

- ENPI CBC HUSKROUA 2014-2020;
- Danube Transnational Programme 2014-2020;
- Eximbank Hungary;
- European Investment Bank.

FOR INVESTMENT, INNOVATION AND DEVELOPMENT

Other relevant information

Development Study, preliminary building estimation and designs (for Uzghorod and Munkachevo) have been prepared in the frame of project under ENPI CBC Programme 2007-2013 and is available at the moment (June 2015).

Development Study was prepared in the frame of the Project
“The development of environmental protection in the cities of Mukachevo and Uzhgorod through assessing the status of existing, polluting water utility systems (water and waste water), additionally, design of a development programme for these systems” HUSKROUA/1101/068 funded from ENPI CBC Programme Hungary-Slovakia-Romania-Ukraine 2007-2013
